

MARCCRAFT

an ETG Brand

HYDRO POWER TECHNOLOGY PROGRAM

HYDRO POWER
GT-5000

Alternative Energy Generation

- History of fossil fuels
- Environmental concerns
- Electric grid
- Alternative energy sources

Energy and Power

- Types of energy
- Potential and Kinetic energy
- Voltage and current
- Electrical loads
- Electrical power consumption
- Power math
- Making electrical connections

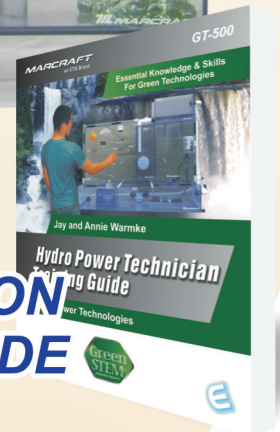

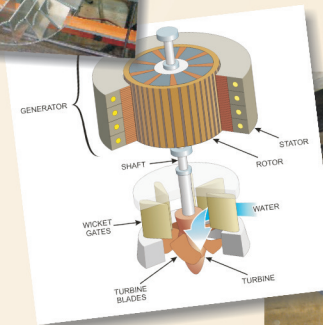

Hydro Power

- History of hydro power
- Hydro power terms
- Measuring head and flow
- Microhydro power systems
- Turbines
- Maintenance
- Economics of microhydro power

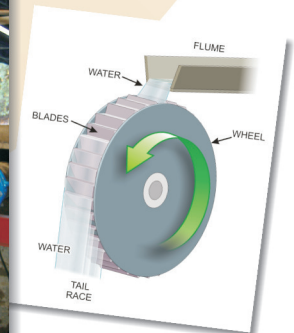

Building Codes and Compliance

- National Electrical Codes
- International building codes
- Underwriters Laboratories
- EPA
- OSHA
- National Fire Protection Association

Reinforced with Hands-on Labs

**HANDS-ON
